Tips for Maintaining AHCCCS: Information on Don't Get Dropped Campaign

Don't Get Dropped is a general retention and renewal campaign that will encourage current AHCCCS members to pay close attention to any AHCCCS letters they receive and to watch for renewal notices. Each year a significant number of Medicaid members (AHCCCS in Arizona) fall off the enrollment list and then re-enter when they get sick. Each time someone re-enters the program the process of reenrolling them adds a substantial cost to our state Medicaid budget. Also, when members lose coverage they risk missing important preventive and routine medical appointments, which are highly cost effective. An inexpensive prescription costs much less than a hospital or urgent care visit and treatment. **Don't Get Dropped** will provide basic information and messages to a broad range of healthcare providers and interested community groups. Stakeholders are asked to disseminate the message to current AHCCCS members. **Don't Get Dropped** is a joint effort of: Keogh Health Connection www.keoghhealth.org and several community groups who are concerned about access to healthcare for Arizona's underserved.

Mission Statement

New Horizons Counseling Service, Inc. is devoted to providing the highest quality outpatient treatment to help individuals address unhealthy choices. We strive, through best practice treatment models, to teach adaptive life skills for people to lead healthier, more productive lives.

Quote Corner

"My experience here at New Horizons has been very beneficial to my mental well being. I am forever grateful to [my counselors] and all my fellow group participants. Without all of who I would have given up long before if could have finished due to mental stress and outside interference, to them I say thank you from the center of my heart."
